Full-Stack Web Developer with event management experience looking to build applications and software to create stunning user experiences. Committed to creating responsive and mobile-first web applications by collaborative teams. Known for my strong work ethic and ability to learn quickly to help create solutions to modern technological problems.

SKILLS

Technical Skills: HTML, CSS, JavaScript, Bootstrap, Materialize, jQuery, Node.js, Express, MySQL, GitHub

Business Skills: Microsoft Office Suite, Cvent, Salesforce, ON24, Adobe Creative Cloud, Sitefinity, GetFeedBack

PROJECTS

Outdoor Adventure Buddies

This random password generator application allows users to input desired length and character criteria to generate a random password that is displayed in the generated password box.

Tools Used: HTML, CSS, JavaScript, jQuery, Hiking Project API, Node.js, MySQL, Express, Handlebars, Passport.js

View Deployment: <https://whispering-castle-57159.herokuapp.com/>

See Code: <https://github.com/dylanbest15/Outdoor-Adventure-Buddies>

My Covid Tracker

This application provides all the relevant news and data for Covid-19 in each country. It allows the user to see all the data related to Covid-19 in their country. In this group project, I served as a front-end developer.

Tools Used: HTML, CSS, JavaScript, jQuery, Materialize, NY Times & Coronavirus COVID-19 APIs

View Deployment: <https://cjlaflamme1.github.io/MyCovidTracker/>

See Code: <https://github.com/cjlaflamme1/MyCovidTracker>

Weather Dashboard

This weather dashboard application allows users to search for cities and view the current and 5-day forecast with data from the OpenWeather API.

Tools Used: HTML, CSS, JavaScript, Bootstrap, jQuery, Moment JS, OpenWeather API

View Deployment: <https://ambertrand.github.io/06-Weather-Dashboard/>

See Code: <https://github.com/ambertrand/06-Weather-Dashboard>
